Executive committee

Arab Societies of Anesthesiologists.

I wish you had all a happy and safe return to your countries from the 9th Pan Arab Congress held in Sharjah 2009. We enjoyed your company and I am happy to continue working with

by the general assembly, a copy shall be available on the web site soon. To these three, I address our gratitude and ask them to remain active partner in the federation we are in great need for their help and experience. Dr Takrouri received special requests from the GA to finish the bylaws and the rule and procedures.

advance a step: Professor Marie-

Dr Izdiad Badran, elected vice president, Dr Nadim Raphael, elected Honorary secretary. Their presence will add to the stability of the executive committee. I extend our welcome to the new members of the executive committee nominated in Sharjah. Dr Bassam Barzangi, elected Treasurer, Dr Guerinik Mohamed, elected vice Secretary, Dr Husni Ajaj, Dr Lahoucine Barou, Dr Megahed Abdel Fattah, Dr Houda Nasser, Dr Mohamed Salah Ben Ammar. We are expecting from them a new dynamic and initiative effort to renovate the federation. Your participation in the various activities of the congress. We address words of appreciation to our host society, the emirates society of Anaesthesiologists, president of the society Dr Megahed, the organizing committees and informed the PCO.

I would like to express my sincere gratitude to all of you for the confidence and trust you gave me during the general assembly meeting. My election as president of the PAFSA for the next couple of years is a real honor and a duty that I intend to make my best to serve PAFSA and to coordinate with you a hard and sincere work to improve our performance and achieve all required targets.

I would like to send a special message of acknowledgement to our colleagues that served in the executive committee and ended their term. They were all of great help without their effort we could not

Claire Antakly, ex-president PAFSA, Dr Mahmoud Al Keilani, ex-vice president, late Prof Ali Salama, ex-treasurer, Dr Mohamed Said Takroui, Dr Sabah Al Kyali, Dr Said Motaouakill, and Dr Reda Boubezari. A special thanks is directed to Dr Mary Antakly that lead the federation in a very critical transitory situation. Dr M Keilani was always present to help when required saving all the changes and stages of the federation since its establishment. Dr Takroui accomplished a great achievement by completing with the bylaw committee the new bylaws that were approved. I send a special appreciation to our founding colleagues, that stood all the travel burdens to be with us and enrich the congress with their experience, memories and advices. We also missed all those who could not make it, for those who were busy we understand their reasons and for those who suffered acute illness, we wish them all speedy recovery. I wished really to have all of them present, we missed Dr Jamal Shanablah, Dr Mohamed Seraj, Dr M Dhaheiri, Dr Khairi Naguib, Dr Mohammed Mottawe, Dr Sawi, to all of them I say we are looking for your presence in the next congress.

I wish from all of you to send to me your opinion, positive and negative point of view, concerning the last congress in order to prepare a report presented to the organizers of the next meeting.

Best regards,

Yehia Khater
President PAFSA

Professor MT alJasir was in the hall signing his book to the interested parties he met and were willing to buy his interesting book

Introduction To Medical Ethics"

Professor Mohammed Al-Saleh Ben-Ammar

The author of this book is Professor Mohammed Al-Saleh Ben-Ammar. Chairman of anesthesia and intensive care in Al-Munji Sleem University Hospital-Tunis. Tunisia. He is also member of Tunisian medical bioethics Committee. The book titled, "Introduction to Medical Ethics"¹ focuses on current international and hot topics of introduction to medical ethics. The audience intended for this title is basically; the medical students, the medical practitioners and other health personnel. The title is important for Arabic health workers readers as it is increasingly recognized as increased demands on advanced medical technology throughout the world. A health worker has to adapt to changes in patient diversities and multicultural patients in the time of globalization, which may be very challenging to do on an individual basis.
